WGM To Broadcast Sessions of Legislature

SERVICE STARTS ON OPENING DAY OF LEGISLATURE

Inaugural Address by Governor Walker Will Be One of the First Fea- mystified police. tures Sent Out.

SPECIAL APPARATUS WILL BE INSTALLED

The Constitution Plans to Make This Service an Annual Event for WGM's Great Audience.

Station WGM, the radiophone broadcasting station of The Constitution, today announces that, effective June 27, and continuing for the entire period of the session, it will broadcast the proceedings of the Georgia legislature. Thus, Station WGM will become the first radio station in the world to broadcast proceedings of legislative body, and Georgia will ave the distinction of being the first of waste and extravagance in connec state to have its legislative proceed- tion with the proposed trial of the

Macon, Ga., June 15 .- (Special.) -Emmett I. Smith, who was convicted January 11, 1921, and given ten years for the murder of Mrs. M. E. Marsh, better known as Ethel Kelley, has been pardoned by Governor Hardwick,

it became known here today. Smith, a former member of the 151st machine gun battalion, of Macon, shot and killed Mrs. Marsh while she was seated in an automobile in Wall street alley. He also wounded her daughter, Mrs. Phillips, and the latter died from pneumonia. Smith had been infatuated with Mrs. Phillips, it was claimed.

AND STATE OF WEATHER 7 p.m. | High The sun has some competition. The Great Lakes are still almost icy cold. Ice floes and icebergs are still drifting down from Labrador and Greenland. Warm air from the interior of the country rises and drifts away at the upper levels to settle perhaps over the cold water of the lakes, Hudson bay and the Labrador current. Still warmer air is drawn in from the Gulf of Mexico and the Gulf Stream. The east experiences a hot wave.

Then the cool air from the north and northeast, creeps in under the warm, humid air; there are general thunderstorms and the hot wave is broken. A workable solution for the negro exodus problem will be sought by a special committee of the City club to be designated next week by Edgar Watkins, president, it was voted unanimously by the club after a spirited discussion of the problem at the longtable luncheon Friday afternoon. A wide difference of opinion on the exodus was expressed by the speakers, some welcoming it and others deploring it as a menace. longtable luncheon Friday afternoon. A wide difference of opinion on the exodus was expressed by the speakers, some welcoming it and others deploring it as a menace.

Dr. Thornwell Jacobs, president of Oglethorpe university, declared to the club that the negro exodus will proveultimately the salvation of the south because it will result in changing southern agriculture from a black man's vocation to a white man's vocation.

Dr. Jacobs asserted that the negro is not a farmer by nature and cannot develop the full value of the natural resources of southern land. His principal effect on the south has been, Dr. Jacobs said, to keep the standards of farming low and by his presence to prevent a better class of agriculture from developing in the south.

Harry A. Alexander declared the

agriculture from developing in the wouth.

Harry A. Alexander declared the exodus to be a menace to the south, threatening its prosperity because its climate makes the negro necessary in agriculture. He blamed the present immigration laws for the enormous increase in the rate at which negroes are leaving the south. He advocated a repeal or radical modification of the present laws in order to permit the immigration current to flow again from Europe into industrial centers of the United States. American industry, he said, is booming along at its old rate and must have labor. Denied foreign labor, it turns to the south and is drawing negroes by the thousands from southern farms, actually paying them higher wages than they can get in the south and offering them better housing conditions, schools and other inducements. Other speakers asserted that the drift of labor from farm into industry can not be checked and that the south is to stimulate industrial development here in order that when

"To the Honorable, the Mayor and General Council:

By resolution adopted June 4 and approved June 5, 1923, we were directed to investigate and report . . . as to the fire hazard on schools as follows: Davis Street, Battle Hill, Ornewood, Crew Street Annex, State Street, Marietta Street and Boys' High school. Complying with the resolution a careful inspection of the schools named was made by members of the committee, and we report:

Davis Street School.

This school building is old, dilapidated and hazardous, and should as promptly as possible be abandoned. If the building is continued in use for school purposes there should be constructed at least three outside stairways. The third one should be from the landing on the stairway leading from the first to the second floors.

20 SOUTHERN YOUTHS ACCEPTED BY MARINES

With the acceptance of 20 southern youths for enlistment in the United States Marine Corps during the past few days it is believed that a new weekly recruiting record will be established when a final check is made Saturday, according to Capt. George Bower. United States marine recruiting officer, at Room 510, Postoffice in George Bower. United States marine recruiting officer, at Room 510, Postoffice of the States marine recruiting officer, at Room 510, Postoffice of the States arose originally from a petition from the citizens of the city complaining of the service rendered and requesting a reduction in rates. The company countered with a cross bill asking higher rates. After a hearing held in December the commission refused any increase under the service had been improved and building.

The following Georgians were among the new recruits accepted by Captain Bower: William L. Pope, Newnan; Dewey Brown, Cuthbert; In January. BOTHER THE BUTCHER.

A little meat in the diet is advisable for most people engaged in active work, though not necessary and often not advisable for a great many who do their work sitting at a desk. For growing children meat three times a week, or for young babies meat broths three times a week cannot be dis-pensed with.

Let a little meat go a great way

The flavor of meat and the stimulating effect of the extractives of fresh meats are what the appetite craves. Get it economically by preparing various dishes containing enough ment to give a flavor to the grain, cereal, or other farinaceous material, or ver-etables, which should constitute the important nourishing part of the rec ipe. Meat is pretty poor nourishment, as compared with bread or potatoes or beans or macaroni and cheese, and a whole lot more expensive. A worker can endure longer without meat in his diet than with it. He can withstand high temperature much more easily without meat than with it. The evening meal should be the substantial meal of the day for all who work in daytime and rest at who work in daytime and rest at night. Midday dinner is wrong for busy people. In fact, people who take breakfast at about S a. m. are often more healthy and efficient if they take no more food until 6 p. m. dinner then a light lunch at bedtime if de

TITLE FIGHT **THREATENED**

Mexico City, June 15.—The promoters of the bout between Louis Angel Firpo, Argentine heavyweight, and Jim Hibbard, of Buffalo, to be staged here Sun-day, announced tonight, because of the agitation against the contest, it would be held merely as an exhibition match. Firpo arrived today from Havana and de-clared himself in good condition. The reported poor showing of Hib-bard in his workouts here is responsible for the agitation against the fight.

Great Falls, Mont., June 15 .- (By the Associated Press)-The question of whether Jack Dempsey, world's heavyweight champion, will defend his title against Tom Gibbons, the St. Paul challenger, July 4 in Shelby on the plains a hundred miles north of the plains a hundred miles north of here, was still undecided late tonight.
Circumstances were so conflicting that it was impossible to forecast whether the bout would be cancelled and all plans for the promotion abandoned, whether Jack Kearns, manager of the heavyweight champion, would agree to an eleventh hour proposal to accept \$50,000 on a second \$100,000 installment due before midnight.

The reason for the existing state of affairs was the lack of finances immediately available to pay the \$100,000 due Kearns. It was almost impossible to obtain conclusive information from anybody connected with the enterprise because of the misrepre-

Bandrimer Triples.

After bidding seriously for runs in the second, the Travelers opened a sharp attack in the third when Bandrimer tripled to left. Tommy McMillan, who has broken up more games in this city than Atlanta fans have fingers and toes, smashed a single between first and second, Bandrimer scoring.

The Crackers quickly forged into the lead by sending over a run in their half. Moore's single to center was the starter. It was the first hit the locals made. Gayon sacrificed. going out, Graff to Chanton on a fast play. Killinger hit to Graham, who made a had peg to catch Moore at third, the latter secring while Killinger reached second. Killinger went of first by Graham 2. The battle then rocked along until Merman singled, only to be caught off first by Graham.

MACON WINS FIFTH. MACON WINS FIFTH.

Macon. Ga., June 15.—Macon won its fifth straight victory here today, having little difficulty with Columbia, the score being 9 to 3. The Hubs collected twelve hits off Mecker's delivery, and, with ragged support rendered by the Comers, the Macon team was never in danger.

Shortstop Ryan continued his hard hitting, getting three hits out of five trips to the plate. Gallagher pitched easily and stendily throughout, and had the Comers well in hand all the way. In the seventh the visitors filled the bases with none out, but could not severe.

EXCITEMENT AT SLAGTOWN.

Birmingham, Ala., June 15.—The Memphis Chicks won an old-fashioned baseball of the score of 7 to 3. Umpire balting, 'pop' bottle showers, razzing, home runs and other features of the old-time game were included in the battle. The Barons' only scores were on home runs, two by Neun and one by Sump Clarke. In the seventh inning, with three Baron runners on base and two men out, Umpire Johnson called Neun out at first on a close decision, which resulted in a pop bottle shower from the right field bleachers, and Neun's banishmen from the game. W. Stewart took first. The Barons used three pitchers.

tie, being called at the end of the eighth inning on account of darkness, after two hours and a half of playing. Hoth Chick Eady, for Albany, and Ludy Bloodworth, for Arlington, worked very slowly in the box. Arling ten hit Eady hard in the first inning, when all of the visitors' runs were scored on five hits and a wild pitch. After the first inning Eady grew stronger, yielding only two clean hits after that frame and striking out ten batters. Bloodworth pitched good hall throughout, but Albany mixed hits with errors in the second and third innings and tied the score. The teams play again Friday at Arlington and back in Albany Saturday.

Next Week, "The Vanishing Men" By Richard Washburn Child.

Continued from yesterday. shot me afterward. Not bad, is it? Could this really be 1? Frank Bee. I can walk."

A meeting between My Lady and me brought on, not long after, the expected crisis. As we talked, suddenly I saw Daniel nearing—striding rapidly, straight for us, a figure portentious in the fading glow, bringing the storm with him.

She saw, too. Her eyes widened, startled, surveying not him, but me!

"Please go. I'll keep him."

"It is too late now." I asserted, in wide not mind the lady to bother you agin. She's yourn."

He whirled.

"Yu! Why, yu leetle piece o' nothin-yu shut up!" By sudden reach he gripped her arm; to her sharp, short scream he thrust her about.

"Git! I'm boss hyar," And at me: "What yu goin' to do? She's promised to me. Git, yoreself, or I'll stomp on yu like on a louse!"

I forgot instructions, I disregarded every movement preliminary to the onset! Bullets were too slow and easy!

I did not see his revolver; I saw but the hulk of him and the intoler-

but the hulk of him and the intolerable sneer of him and that his flesh was ready to my fingers.

And quicker than his hand I was upon him, into him, climbing him, clinging to him, arms binding him, legs twining around his, each ounce of me greedy to crush him down and master him.

The shock drove him backward. We swayed and staggered, grappling hither and thither. I had his arms pationed, to bend him. He spat into my shoulder so that they champed like the teeth of a horse, through shirt and hide to the flesh.

We toppled together, came to the ground with a thump. Here we charned, while he flung me and still I stuck.

The fact appalled. It gripped me coldly. I seemed to have bargained for her with "st and bullet, and won her; now! I should appear to carry her off as my booty; a wife and a gambler's wife. Yet, such must be 'mours," Jenks said. "I'd advise you to take an hour's start of it, so as to get away easier. If you travel straight south'ard you'll strike the stage road in the mornin'. When you reach a station you'll have ch'ice either way."

"I have money," she said; and sat erect.

So there I stood, amidst silence, gaping foolishly, breathing hard, my revolver smoking in my fingers and my enemy in a shockingly prone posture at my feet, gradually reddening the white of the torn soil.

He was upon his face, his revolver hand outflung. He was harmless, the moment had arrived and passed.

I was standing here alive. I had killed him!

Figures rushed between. Hands masped me, impelled me away, through a haze; voices spoke in my car while I feebly resisted, a warm sally taste in my throat.

STOCK LETTER.

New York, June 15.—The epening was rather a surprise this morning because Liverpool was better than due. The selling orders in the ring checked any advance that might have occurred on the opening and the market quickly eased off to around 24.30 for tetoler. However, this decline was short lived because of the fact that when Liverpool market closed their curb was up about 10 points on, July and immediately there was considerable buying of July by 2. Therwise buying was restricted by
very favorable character of the weather news, but when July turned to cover, the general dvanced sharply. October sold slorts turned to cover, the general list advanced sharply. October sold up to 24.97; or 67 points above the early low level, and December to 24.42 in the late trading when the seneral list showed net advances of 38 to 81 points. Closing prices were within a few project. There was some scattered selling during the early afternoon on rather bearish week-end figures, but offerings generally were limited and the late ofternoon advance was encouraged by reports of an increase business in cotton goods at Fall Piers.

THE SEARCH FOR POWER

(The following is issued by the committee on church co-operation:)

"You shall receive review and to walk hambly with thy God?"

"You shall receive power—"
Is that not the greatest of the promises of Jesus, and the one which has been most often proven true?
All mankind is in search of power.
The lives of the individual and the home, of the community and the state,

depend wholly upon power.

Although the word "power" may not have been mentioned, power was the real subject decuised at the last two meetings of the City club, and at gration of negroes from the state was wing considered.

Eleven thousand Georgia farms are reported to be lying idle because of the lack of labor. Approximately 69,000 negroes are said to have left the state in the last few months. Their going means the loss of that much power, the man power of the aborers who have gone.

Labor agents have tolled them away For the moment, grant that this is true. Why do labor agents find it profitable to come to Georgia and pay high license for the privilege of nducing negroes to leave this state o go to another? The answer is simple. Because industries in o states are seeking "the power"

Power for All. ome one will ask: What on earth has this to

'the power' promised by Jesus?"
And another wilr came in:
"Yes: Christ was talking only of
'spiritual power,' which has no earthly onnection with the power of a negro

But we answer that the two are inseparably connected. When Paul I am not ashamed of the gospel of st: for it is the power of God salvation to everyone that be-

Paul was speaking of the one and only power which will solve the prob-lem of labor power not only for the cotton fields of Georgia, but for every industry throughout the world. The "salvation" of the Georgia farm does not lie in using force to hold the power of a laborer who wants to go. That sal-sation will not be found in the masked mob and the methods of the

There are counties in Georgia where, it is reported, approximately not a negro has left. This is said of counties like Houston. In such counties decent schools are provided for negro children. And the negro is con-fident of receiving protection and justice, a square deal

Grim Facts. In another county, since February 1, one negro church has lost 462 members, who have gone to another state. In yet another county a church which had 71 members at the last conference, has today one left, an old woman too feelle from nee to 20.

too feeble from age to go.

And 11,000 Georgia farms are lying idle for the lack of the power of labor. The last census shows that since the preceding census 45 counties of the tate have actually lost in population. Are not these grim facts God's method of waking us to the necessity for applying "the power" of His gospel to the life of our whole state? ng before the coming of Christ,

GREAT RUGUPUS MYSTERY PUZZLE TO ZOO KEEPERS

Chicago, June 15. -The great Rugu-Chicago. June 15.—The great Rugu-pus mystery was puzzling keepers at the Lincoln park zoo here Friday. Edmond Heller explorer, recently wrote that he was sending a real live Rugupus for the zoo. A rugupus is something that looks like a huge rat and usually lives only in South Amer-ica.

The crate arrived Friday, but instead of saying "rugupus" on it, it said "Diononys," and the animal had a few polka dots on its head, which so far as is known here are not affected by rugupi—or rugupuses.
So, pending further information from Heller, the zoo is perplexed whether it has a diononys or a rugu-
